The file was referred to Chief Engineer for noting the cost of the map. It was received in the office to day with his opinion & is hereunder put up. The file has to go to Survey Supdt for opinion. The Chief Engineer has given a specific opinion that the cost will be about 3 Rs per 100 sq. yds. It does not therefore seem to be necessary to send it to Supdt for opinion

To

C.S.Balasundaram Iyer, Esq., B.A.,

Offg: *Secretary to the Government of*
His Highness the Maharaja of Mysore,
General and Revenue Departments.

SIR,

I have the honor to state that I propose to append Census Report of 1911, a general map of Mysore on the lines of the one contained in Vol II of Rice's Gazetteer (1897 Edition) but a smaller scale viz., 20 miles to an inch.

2. In June 1911, I got from the Survey Superintendent an ou line map of Mysore showing up-to-date boundaries of Taluks and Dis tricts drawn on a scale of 20 miles to an inch; but this was merel intended for the preparation of diagrammatic or illustrative maps that are to be appended to the several chapters of the Census Rep

3. I request, therefore, that an authoritative and up-to-d general map on a scale of 20 miles to an inch may be ordered to b prepared and supplied to me for being issued with the Census Repo The map besides showing district and taluk boundaries as well as names of towns and places of interest like Sivasamudram, Gerosapp should be made to indicate also topographical features, i.e., hills, streams, tanks, etc., and also Railways. From enquiries made, learn that no such map is available either in the Revenue Survey Public Works Department or for the use of Schools in the Educati Department. The Public Works Department has no doubt a map pr

prepared under the directions of the Surveyor General of India, and drawn on a scale of 16 miles to an inch, but this does not show mountains nor are the district and taluk boundaries up-to-date therein.

4. As I shall have to arrange for the printing of a sufficient number of copies of the map for being bound in the --- Report Volume, I would ask that my request may be kindly complied with as early as possible.

I have the honor to be,

Sir,

Your most obedient servant,

Census Superintendent.

Dear Sir

In reply to your D. O. letter No. 87 dated the 5th instant, I beg to state that I had the idea of appending to the Census Report a general map of Mysore with a view to exhibit among other things the topographical features of the country so as to enable the general reader to follow the description of the country and other matters embodied in the several chapters of the Report. But in view of the fact that such a coloured map can only be got printed at Poona and also that it entails a heavy expenditure, I now consider it unnecessary.

Yours sincerely,

To
